

CBS2 WEATHER ROOKIE

The "CBS 2 Weather Rookie" is a great inter-active program that allows students in 2nd through 6th grade to become our Weather Rookie for a day.

Justin Roberts, our Morning Weather Anchor heads up fun and educational program.

We will schedule a student to be on the Morning Show every Wednesday morning. The student will arrive at the station by 6:00a.m. and will spend an hour with Justin learning the basics of a weather forecast. At around 6:45 a.m. the CBS 2 Weather Rookie, with help and coaching from Justin, will present a weather cast live on CBS 2 This Morning. Once the weather cast is complete the student will join Justin, Tim and Kelly on the news desk for some small chit chat or "crosstalk".

Later in the morning Justin will visit the student's classroom and talk about weather forecasting. It's a great way to expose young people to the science of weather.

Let your teachers know that we are accepting students for this year's CBS 2 Weather Rookie. I know your schools and classrooms will find our Weather Rookie program a great experience.

Please let Justin know if you have any questions.
Justin can be reached at jroberts@kgan.com.
